

STATEMENT REGARDING OPERATING PROCEDURES

Quisqueyana, Inc. ("Quisqueyana") has established the following operating procedures to ensure compliance with the FCC's CPNI rules:

1. It is the policy of Quisqueyana to maintain as part of its operating policies the confidentiality and privacy of the customer's use of our telephone cabin facilities. Therefore, at no time shall the customer's individual dialing records be subject to sharing with third parties for any reason, whether for commercial gain or otherwise, without the customer's permission. This policy is binding on Quisqueyana and its employees.

2. As a practical matter, as part of its operating procedures the telephone cabin dialing service of Quisqueyana does not keep records of any of its customer's dialing activities, making it impossible to disclose any such records to third parties. The telephone cabin service is sold to the customer on a walk-in basis so that the customer need not register his or her identity in the system in order to avail him or herself of the service. Nevertheless, Quisqueyana requires from its employees a commitment to safeguard the privacy of the customer and the confidentiality of the information related to his or her use of the service.

CERTIFICATION OF CPNI FILING

I, Mohamed R. Chalabi, Chief Executive Officer of Quisqueyana, Inc. ("Quisqueyana"), hereby certify that I have personal knowledge that Quisqueyana has established operating procedures that are adequate to ensure compliance with the Federal Communication Commission's CPNI regulations. The attached Statement Regarding Operating Procedures sets forth how Quisqueyana's operating procedures ensure compliance.

Mohamed R. Chalabi
Chief Executive Officer
Quisqueyana, Inc.
